

Roberts Besieged by Reporters Forced to Move, He's Still Happy

White House newsmen besiege Associate Justice Owen J. Roberts, in car, after he delivered his report fixing responsibility for enemy successes in Japanese attack on Pearl Harbor, Dec. 7.

Spirits of this American-born Japanese weren't dampened because he was forced to move from his Terminal Island, Calif., home. Here he watches men move his furniture into a waiting van.

TWO ROOKIES AND A COOKIE . . . Phil Silvers and Jimmy Durante join the army and Jane Wyman as the colonel's daughter welcomes the new recruits. The picture is "You're in the Army Now," and the fun starts tonight (Thursday) at the Grand Theatre. Also on the program is "Unholy Partners," starring Edward G. Robinson, Edward Arnold and Laraine Day, and the latest Our Gang Comedy.

He's 'Smallest and Fightingest'

Pvt. Willie Dockray, right, talked his way into Army by arguing "these Japs aren't any bigger than I am," is called "smallest and fightingest soldier" by officers at Camp Callan, Calif. Here he's shown with Corporal Durrell Davis.

IN MOUNTAINS

Mr. and Mrs. A. C. Steele and a group of Los Angeles friends spent the weekend at Big Tujunga at the Robert Morris cabin.

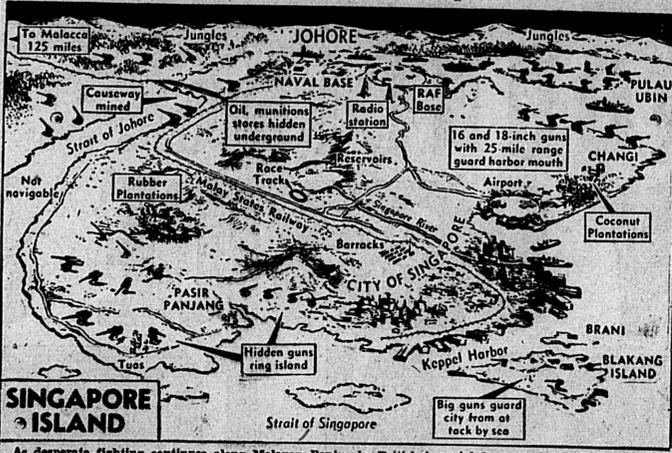

U. C. Prof Says Hitler Has Shot His Bolt

BERKELEY. — Adolf Hitler probably has shot his bolt, but he is still capable of further great efforts, says Dr. Robert J. Kerner, Sather professor of history in the University of California. "Great new efforts by the Germans may come in the form of another spring offensive in Russia or in the Near and Middle East where they may seek junction with the forces of Japan, if the latter take Singapore," Dr. Kerner declares. "Nazis Germany is already beyond the peak of her utmost economic and industrial effort. The problem is to batter the Nazis while they are groggy and this fits into the grand strategy adopted at the Roosevelt-Churchill meeting in Washington."

DON'T TAKE THIS LYING DOWN . . .

When men are fighting and dying, you must do your part. Be sure you enlist your DOLLARS for DEFENSE. Back our armed forces—and protect your own life—with every single dollar and dime you can. America must have a steady flow of money pouring in every day to help beat back our enemies. Put Dimes into Defense Stamps. And put Dollars into Bonds. Buy now. Buy every pay day. Buy as often as you can. Don't take this lying down.

Singapore Island Ready for Japanese Invaders

As desperate fighting continues along Malayan Peninsula, British imperial forces make ready for stand on Singapore Island. Should Japanese armies overcome resistance of British and reach vicinity of Singapore, they will encounter strongly entrenched defenders. Pictorial map shows how island is prepared to resist indefinitely, attacks from land or sea.

Four Stars in Ultra-Modern Film Comedy

Ultra-modern comedy with a background of literary bohemianism brings four stars to the screen in "The Feminine Touch," opening Sunday at the Plaza Theatre in Hawthorne. Rosalind Russell, Don Ameche, Kay Francis and Van Heflin create a "four-cornered" triangle in a pot of conflicting emotions. The supporting cast includes Donald Meek, Gordon Jones, Henry Daniell, Sidney Blackmer, Grant Mitchell and David Clyde. Miss Russell portrays the attractive wife of Ameche, who is a college professor, scientifically opposed to jealousy. He writes a book to support his theory and it is bought by Heflin, playing a New York publisher, with Miss Francis as his aide. To shatter her author-husband's scorn of jealousy, the wife accepts the attentions of the playboy publisher. His assistant, deeply in love with him, retaliates by devoting herself to Ameche. That four-angled situation launches the principals into a comedy of marital jealousy.

Canadians Seize Fishing Boats

Fishing craft operated on Canadian Pacific coast by persons of Japanese origin have been seized by Canada's Navy. The boats have been tied up at Steveston, on Vancouver Island. Many Japanese fishermen already have volunteered to serve in Canada in any war capacity.

IT'S STILL A JITNEY

So the priorities board has cornered the fine old American institution, the nickel—and told him to kick through with vital material in his possession. The nickel we've known is three-fourths nickel and one-fourth copper; the nickel minted from now on will be half silver and half copper. There's a war shortage in nickel. Maybe serious comment should be made here—solid stuff about the integrity and wealth of Uncle Sam, and not about the coin's mineral makeup, that makes it worth five cents. But somehow the nickel doesn't seem so much like serious money, as like a jingling universal key to things Americans would be lost without—the pay telephone, juke box, pin-ball machine, subway turnstile, gum and candy vending machines and other coin-box conveniences. All we can imagine is the nickel getting a tiding giggle out of the business—bragging to the snooty little dime about his new silver content, and flaunting the "five" stamped on his chest as his V for victory! Just the same old five-cent jitney in a silver war uniform!

Air Raid Horns to Be Set Up in This Area First

This southwest section of the county will receive the first installations of air raid warning horns, probably during the first week in February, it was stated this week by R. E. Shonerd, chief mechanical engineer for the county. The horns are expected to be delivered at the rate of four or five a day, each representing a day's production, and being turned over as fast as they are factory-tested and adjusted for tone. The southwest area will be given preference because of oil refineries, tank farms and airplane manufacturing at Los Angeles Municipal airport. Area embraced is that served by the Vermont sheriff's sub-station, known as the Vermont area to the county Civilian Defense Council. Next area to receive the air raid warning devices will be the Firestone district, because of its manufacturing plants and the large rubber tire factory, and stocks and density of population. The Downey-Norwalk district will be next, embracing the large development of defense workers' homes, the North Long Beach Douglas plant, the Vulcan plant and the Santa Fe Springs oil producing area. Texas has towns named Telegraph and Telephone.

MABEL WALLACE, Prop.
Open Informally Beginning Today (Thursday)

"At the bottom the issue will always be, whether we will discipline ourselves or be disciplined. In the meaning of these few words, we will save or lose our democracy. "The world is in a process of democratization which the totalitarian states cannot stop, but which they may retard. Whether contemporary democracy in its present form can survive will depend entirely upon its leadership and intelligence of the people who follow it." The greatest stumbling block—Egotism.

ATTENTION

• Union markets in the harbor area, namely, San Pedro, Wilmington, Harbor City, Lomita, Torrance and Gardena, are operating daily, including Saturday, between the hours of 8 a. m. and 6 p. m.; closed all day Sunday and holidays.

• We regard the support of these shopping hours by the shopping public as patriotic to our country's defense program in conservation of power and light for release in defense work.

• Perishable commodities purchased in the early hours of the day, especially Saturdays, are better.
